

Symbicort Medication

Before using SYMBICORT inhaler, make sure of the following:

- **Expiry date.**
- **Prescribed dose.**
- **The inhaler contains an adequate amount of medication.**
- **The inhaler is free from impurities or metal pieces.**

How do I use Symbicort inhaler?

Unscrew the cap.

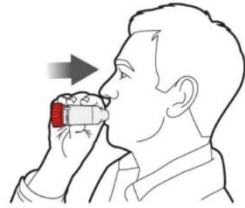

Hold the inhaler upright. Load it by turning the coloured base of the inhaler to the right as far as it will go, then twist it back.

**Breathe out, away from the inhaler.
Do not blow directly into the inhaler.**

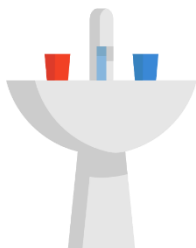

**Place the mouthpiece in your mouth
and form a seal with your lips.
and hold your breathe in deeply
breath for as long as possible.**

**If you need a second dose, repeat the
steps starting at step two.**

Replace the cap after usage.

Rinse your mouth after inhaling the dose

Note:

- **The dose indicator window tells you how many doses are left in your inhaler. The inhaler is empty when the number "0" appears in the window.**
- **The taste of the inhaler cannot be tasted because the dosage amount is too small.**
- **Follow directions correctly.**
- **Make sure to put the cap back on the inhaler after use. Do not expose the inhaler to high levels of humidity.**
