**What to do if child has
seizure?**

What to do if child has seizure?

Stay calm

**Do not put anything
in your child's mouth**

**Place your child on
his/her side to help
drain secretions**

Loosen clothing

**Do not try to hold
your child still. Move
objects away from
your child so he/she
does not get hurt**

**Support your child's
head with a pillow or
soft object**

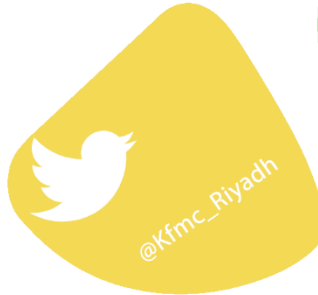

**Give rectal diazepam
if seizure last more
than 5 min**

**Take your child to
nearest hospital for
further management**
