KFMC hosted the events of TEDx First International Conference on Monday 25/12/2017, with the participation of 12 speakers from KFMC employees to present their inspiring experiences and success. This conference was held at KFMC Main Auditorium and attended by KFMC Chief Executive Officer Dr. Mahmoud Al Yamany. The event is an international conference dedicated for spreading inspiring ideas and stories that deserve to be presented and disseminated for gaining benefit in many fields.
Mr. AlBraikan: Hosting TEDx is Inspiring and Motivating for the Success to KFMC Employees

Director of KFMC Public Relation & Corporate Communication Administration, Mr. Bassam AlBraikan said, “The event is an international conference dedicated for spreading inspiring ideas and stories that deserve to be presented and disseminated for gaining benefit in many fields. By virtue of being an international conference, many talented and creative people undoubtedly got opportunities to present their ideas that became a point of concern by the largest companies and institutions all over the world. Holding such a conference is therefore a positive and incentive matter for KFMC employees. KFMC’s role in holding such major and highly-influencing international conference is to support and encourage institutions’ employees to share their successes and promote the culture of creativity for the development of the individual and society.”
“Regardless of what position we hold or specialty we have, we actually all have responsibility and input in developing a healthy work environment that can help in making fantastic patient experience.”

Mr. Ahmad Hawsawi

“Why do you hold in you negative thinking? Let it go, get it loose, be positive, don’t accumulate the negative thoughts in your mind”

Dr. Talib Kafaji

“Starting an entrepreneur or a new project is a learning curve. It’s something that you need to be patient, persistent, open minded, and flexible about.”

Eng. Ahmed Barradah

“Regardless of what position we hold or specialty we have, we actually all have responsibility and input in developing a healthy work environment that can help in making fantastic patient experience.”

Dr. Bandar Alosaimi

“Take that leap of faith, voice your hearts and minds out, and you will fly high.”

Mr. Joseph Vilgera

“Happiness is satisfaction, family, friends, health, empathy, forgiveness, and contribution. Happiness is contagious so spread it!”

Dr. Ismail Bakhsh

“Starting an entrepreneur or a new project is a learning curve. It’s something that you need to be patient, persistent, open minded, and flexible about.”

Eng. Ahmed Barradah

“If you continue to reward yourself every day you will continue to progress and achieve your goal over the years. But if expect a reward from somebody it will be short-lived and probably won’t last long.”

Dr. Fahad S. Al Ghofaili

“Living is moving and we should never stop. It is about the journey, so you might as well make it an exciting one.”

Dr. Alhanouf Alnashmi

“No matter what you do just focus on the job you do, try to get it done in a good time; you have to understand it well. And for the team you work with, support them, don’t police them and they will do the best.”

Dr. Ghazi Althubaiti
